

THE PERFECT PLACE SETTING

Security, Efficiency and Profits, all in one course.

Bring secure, customer-driven payment to the point of service with ON THE SPOT payment solutions from VeriFone and Vantage Card Services, and provide customers with peace of mind while increasing your profits – at the table and carside to-go.

Protect your customers against card skimming and ID theft

Improve customer experience by dramatically reducing guest wait times at the end of the meal

Can save operators up to \$.50 per transaction by accepting PIN-based debit*

*Federal Reserve of Kansas City, November 2005

The ON THE SPOT managed solution from VeriFone and Vantage Card Services brings the portability of the VX 670 and its consumer-friendly ServPOS software together with a web-based service designed to provide many of the same management and timesaving features found in enterprise systems – all from a PC with an Internet connection. Plus, optional services make installation and networking easy.

Find out how at www.vantagecard.com/onthespot, or call Vantage Card Services, Inc. at (770) 928-5688.
