

Mobile

Your Mobile Credit Card Processing Solution

PayTrace Mobile is designed to allow you to accept credit cards on any mobile device that has an internet connection and a web browser, including PDAs and smartphones. PayTrace Mobile is similar to PayTrace's other applications, except it's designed to accommodate devices with slower connection speeds and smaller viewing screens. PayTrace mobile is available at no additional charge with all PayTrace accounts.

Process a Transaction Anywhere:

- Process Sales
- Email Receipts
- Store & Forward Transactions
- Void Transactions
- Refund Transactions
- Capture Transactions
- View Transactions Reports

Added Value at No Additional Cost:

- Mobile is Available With All PayTrace Accounts
- Simply Login Through: <https://paytrace.com/m>
- Utilize Your PayTrace Account Log-in Credentials
- No Additional Charges for Using PayTrace Mobile

Robust Security:

- Fully Encrypted Data Transmission
- No Cardholder Data Stored on Mobile Device
- Data Stored in High-Security Data Centers
- PCI Security Standard Compliant

The secure advantage.
